RE: Letter of Recommendation for Kari Berit

Kari presented for Kadlec Neurological Resource Center's 3rd Annual "Prescription for Caregivers Conference" on June 3, 2014. As promised, attendees left the conference feeling supported, appreciated, and energized.

They learned new strategies to help them care for themselves as they care for others. The feedback was overwhelmingly positive—"Very Excellent" even. One attendee noted that what she learned applies "to my job and personal life situations." Another wrote, "This all helps! No matter how many classes & all we have gone through—we always learn something new!" There were multiple requests to have Kari present again at future conferences.

Kari held everyone's attention for a full day. Verbal feedback at the end of the day was overwhelmingly positive and upbeat. Attendees appreciated Kari's sense of humor, her ability to connect with the audience, and the "new paradigm of caregiving" that she presented.

During the process leading up to the conference, Kari communicated very effectively. She provided all materials in a very professional and timely manner. Her handouts and power point presentation were high-quality and graphically pleasing.

I highly recommend Kari as a presenter. She has the ability to hold an audience's attention, make them laugh, and help them learn. She is entertaining and also an excellent singer.

Sincerely,

Karen Hayes, MA

Executive Director
